To whom it may concern,

I am writing to highly recommend Sean Brownlee for any position within the field of information technology. Sean recently completed his bachelor's degree in computer science from Slippery Rock University and has demonstrated exceptional skills and dedication during his time working with us at the Slippery Rock University IT Support services Department.

As Sean's supervisor, I had the opportunity to observe his work closely. He joined our team as a freshman and quickly proved his capabilities in various IT tasks.

Sean possesses excellent problem-solving abilities and is adept at troubleshooting software and hardware problems. He effectively collaborated with team members to develop innovative solutions and demonstrated remarkable adaptability in learning new technologies and tools. His attention to detail and commitment to delivering high-quality work were evident in his contributions to several projects during his time here.

Sean exhibited outstanding communication skills, both verbally and in writing. He effectively communicated technical concepts to non-technical stakeholders, facilitating smooth collaboration and ensuring project objectives were met. His professionalism and positive attitude made him a valuable asset to our team, and he consistently received praise from colleagues and our customers.

I wholeheartedly recommend Sean Brownlee for any IT position. He brings a strong technical skill set, a passion for learning, and a dedication to excellence that will undoubtedly contribute to his success in any role he pursues. Please feel free to contact me at erik.anderson@sru.edu if you require any further information.

Sincerely,

Erik Anderson
